**ABSTRACT
FOR
ONE-WEEK NATIONAL LEVEL WORKSHOP ON
'SOCIAL SCIENCE RESEARCH METHODOLOGY'**

Any systematic investigation towards increasing the sum of knowledge can be termed as research. The organized analysis of a subject to record and disseminate information or to present a point of view can be termed as research paper. One of the major purposes of scientific research is to create new knowledge and go beyond experience and common sense. Research is best conceived as the process of arriving at dependable solutions to problems through planned and systematic collection, analysis and interpretation of data. This workshop is intended to provide to all participants a framework of process and compositional approaches for designing qualitative, quantitative and mixed method of research in human and social sciences. The increasing interest in and use of qualitative research and the emergence of inter-disciplinary approaches besides continued use of traditional forms of quantitative designs have created a need for this workshop.

PROGRAM OBJECTIVE

1. The primary objective of this program is to provide knowledge on research methodology and design aspects including hands-on training of data analysis tools such as means, mode, factor analysis and application of statistical packages for social sciences. This workshop will also include study of various computer applications for data analysis and interpretation.
2. The program will provide an elaborate study on how to write scientific manuscripts and review process including comprehensive review of sources and characteristics of the constraint typically found in the construction of research design.

ELIGIBILITY

Any registered Ph.D. students in social science in any Indian University/ Institute are eligible to apply for the workshop. Social Sciences disciplines are as under

1. Computer
2. Economics
3. Education
4. History
5. Political Science
6. Statistic
7. Geography
8. Sociology
